

Consultation 2010/05 – Changes to General Rule 5a

General Rule 5 covers the process for electing architect members to the Board. Because the electoral scheme which governs the elections is being updated and some of its provisions amended, General Rule 5a requires amendment to reflect the changes in the revised electoral scheme.

General Rule 5a refers to the number of supporters that a candidate standing for election needs to support their nomination. Currently, a candidate has to have the support of 12 other architects to validate their nomination. The revised electoral scheme proposes that the number of supporters is reduced to 10. This change is reflected in the revised General Rule 5a.
